ABOUT COMPANY

A LITTLE BIT OF HISTORY

QTS is an Italian multi-services agency which focuses on core business in inspection, expediting, PSI, QA/QC and site services in Oil & Gas, Renewable energies, Water treatment, Power industry and Civil Construction to businesses across the globe.

Having a background experience of 10+ years, QTS aspires to provide reliable services that fulfill customer needs to the highest standard.

Our head office is located in Lombardy, where the main Italian manufacturers for the Energy industries are located.

Thanks to our head office and Indian branch located in Mumbai, QTS is able to provide their clients with global coverage and cost-effective services.

The continuous challenge based on Customer's feedbacks have given to QTS all the weapon to improve and succeed on the market.

COMPANY TIMELINE

HERE ARE SOME OF THE MAIN HAPPENINGS IN QTS HISTORY

ESTABLISHMENT

Established in 2014, QTS started building reliable network by means of handling small projects across Italy and obtaining, in 2015, the recognition from UKAS for Quality management System.

2014

2018...24

EXPANSION

With its unwavering commitment to fulfilling client needs, QTS has expanded globally by establishing a Pvt. Ltd. branch office in Mumbai, India, and operational offices in Houston, USA, and Ningbo, China.

RENEWAL

As a symbol of continuous growth, QTS decided to change its image on the market with new branding and a new website aimed at reflecting the new company philosophy.

2021

2023

IMPROVEMENT

Based on trust earned by our customers, QTS realized in 2016 of a tailor made Software that has improved and refreshed as per the latest updates of the operation's market.

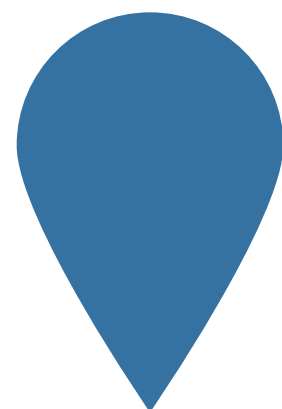

HEADQUARTER ACQUISITION

In 2025, we acquired our new headquarters at QTS, significantly expanding our operational infrastructure. This strategic move was driven by the growing workload entrusted to us by our clients, allowing us to enhance efficiency and better support their evolving needs

OUR GOALS

OUR MISSION: EXCELLENCE IN EVERY DETAIL

At the heart of our company lies a clear mission: to deliver highly reliable inspection and expediting services, tailored to meet the unique needs of each customer.

We operate with precision, transparency, and full compliance with the most rigorous industry standards.

By combining technical expertise with a customer-oriented approach, we aim to be more than a service provider, we strive to become a trusted partner who actively contributes to the success of our clients' operations.

OUR VISION: GROWING TOGETHER THROUGH KNOWLEDGE

We believe that continuous improvement is the foundation of long-term success.

Our vision is built around the idea that training, professional growth, and innovation are essential to delivering complete, cutting-edge services.

In an ever-evolving market, we are committed to anticipating our clients' needs and becoming an indispensable asset in their daily work.

Our goal is to be recognized not only for what we do, but for how we empower our clients through competence, dedication, and a shared pursuit of excellence.

SERVICES

INSPECTION

WE PROVIDE THE TOP SERVICES FOR YOU

Achieving solid experience from more than 10 years of inspections and consultings performed on various kinds of equipment worldwide, QTS aspires to provide reliable inspection services that exceed customer needs.

QTS offers a wide range of inspections and technical services on many different types of equipment, from Pre-Inspection Meetings to final delivery.

VENDOR INSPECTION

QTS offers concrete solutions that will survey the supply process during the whole chain of production/testing/delivery of equipment.

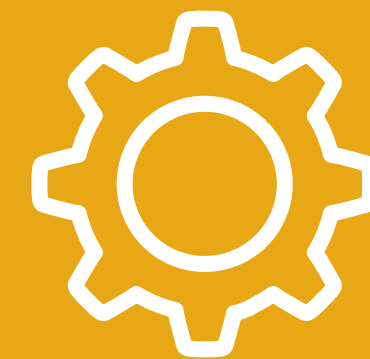

REMOTE INSPECTIONS

The delivery of remote video inspection with multimedia assets sustains the worldwide procurement offices with safety restrictions. This new advancement gives a whole new advantage that will change the way to perform inspections.

SITE INSPECTIONS

The importance of fulfilling the goals during large site constructions is one of the keys to succeed, that is why our wide network of international personnel will provide surplus value to the outcome of your project.

NON DESTRUCTIVE TEST

Material integrity can be ensured through QTS with our material testing dept. and weldings quality surveillance. Professionals will survey and test various materials during the production cycles.

DOCUMENT STATUS

From the acknowledgement of purchase order to shipping, all the documents that are involved are constantly monitored and reviewed during expediting visits.

MATERIAL PURCHASING

Deep analysis shall be made when reviewing project specifications, placing orders to sub-suppliers and understanding the workload capabilities. These steps will help to maintain correct and on-time deliveries.

FABICATION & TESTING

Along with our technical department, our team is trained to fully understand the overall process during fabrication and testing phases.

PACKING & SHIPPING

Last but not least, these activities are key-factors along with the ones previously stated. The knowledge of material handling is important to avoid serious damage to goods during transportation.

EXPEDITING

SURE TO BE ON TIME

Reaching goals is a key factor during the development of projects and supplies by avoiding any potential delay or issue that may affect the deliveries.

Our team is capable to understand the processes involved in the manufacturing and realize in advance which problems may rise avoiding waste of time.

This helps both, manufacturer and client, to save costs and improve their deliveries.

QUALITY ASSURANCE

QTS IS YOUR PARTNER TO BUILD A STRONG QUALITY SYSTEM

VENDOR AUDITS

As the market is constantly changing, QTS is able to help vendors and manufacturers comply with the latest requirements and standards. Our auditor's knowledge and qualifications, built throughout the years, will support vendors during the validation of manufacturing process, with risk assessment evaluation and optimization of resources.

QUALITY SETTLEMENT

Need to set the standards or demand a higher quality level? QTS expertise will guarantee the proper process evaluation to figure out where and when to establish and improve quality efficiency avoiding problems or hazards.

MONITORING PERFORMANCE

Constant and continuous evaluation of the process that takes place in any activity is one the key- factors to create a solid and reliable reality. Performance evaluation is achievable by monitoring sub-suppliers as well as receiving feedbacks from external inputs which may provide a different aspect for a more beneficial outcome.

PRE SHIPPING INSPECTION

YOUR SHIPPING IS IN GOOD HANDS

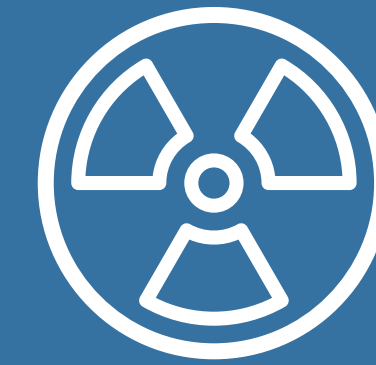

QUANTITY / QUALITY CHECK

LOADING SURVEY

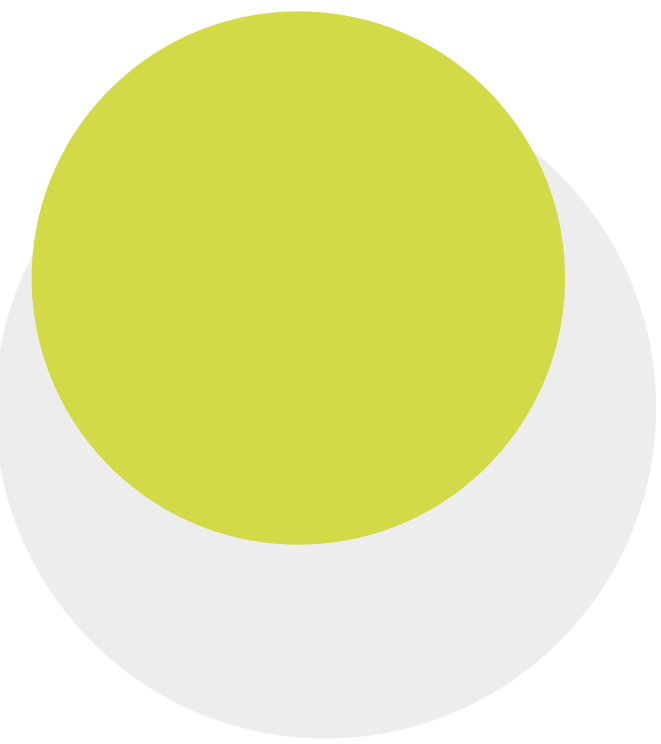

SAMPLING COLLECTION

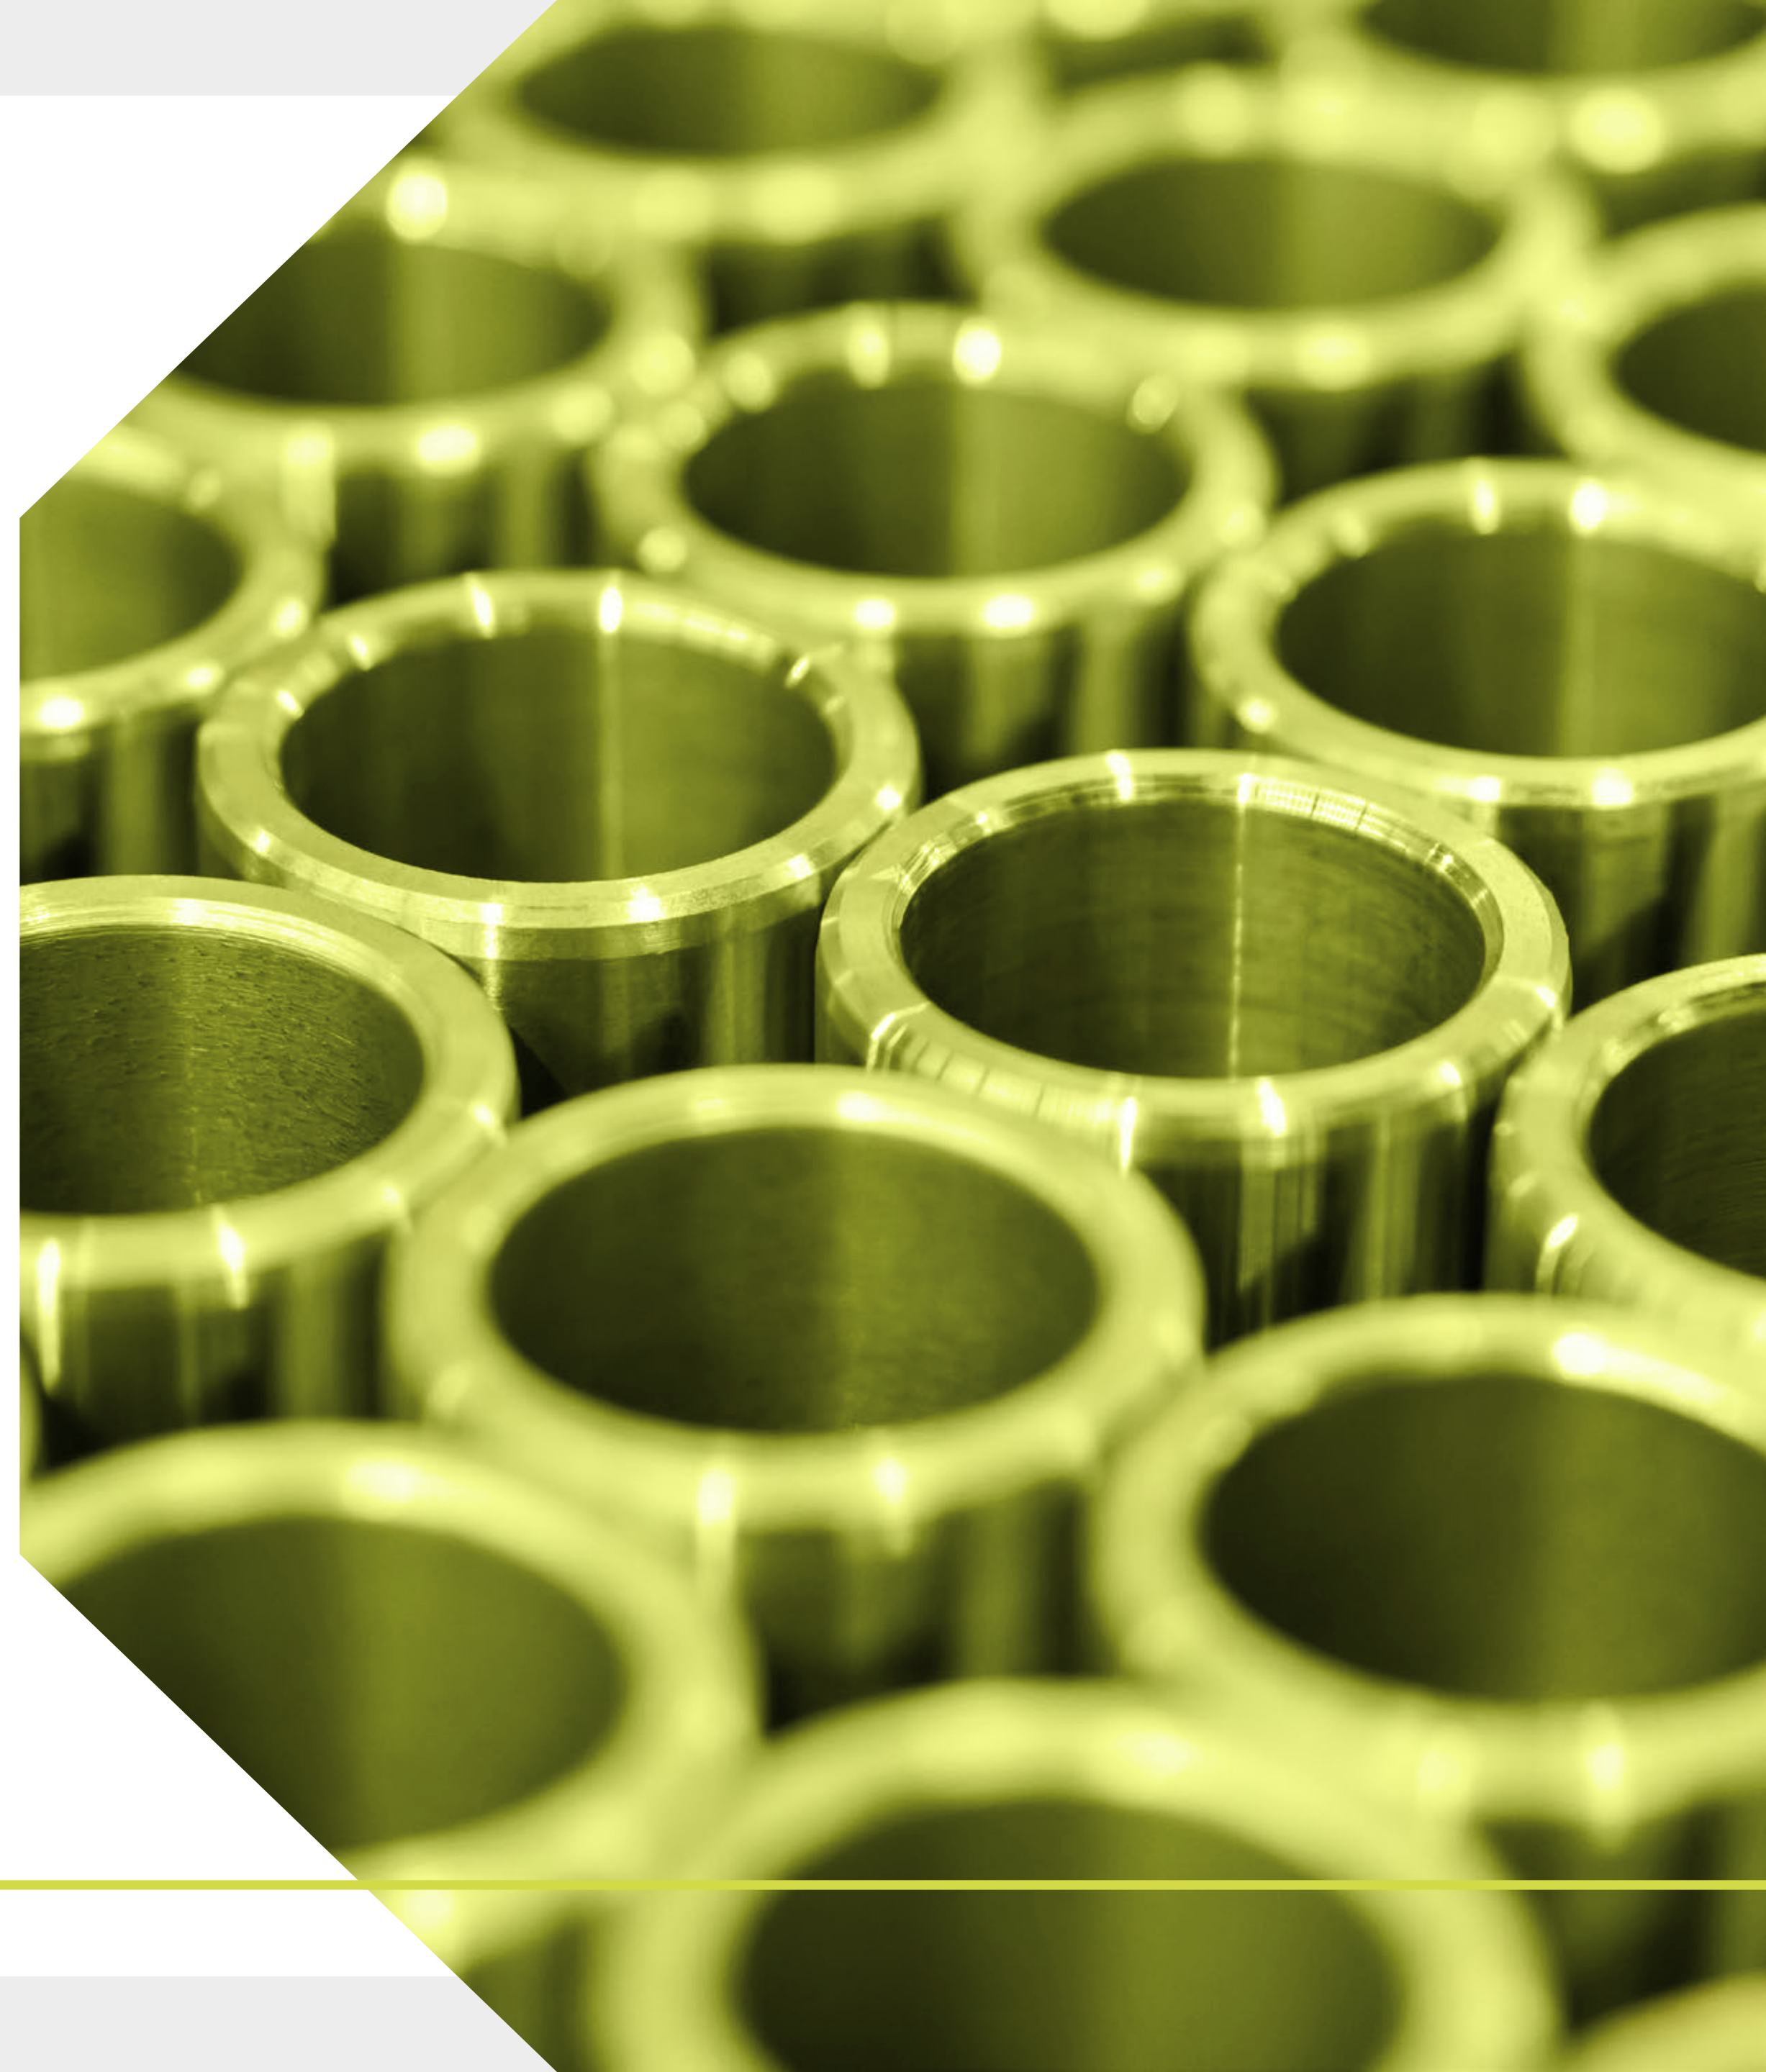

RADIOACTIVITY CHECK

QTS pre-shipping inspection service guarantees complete control of the status, quantity and marking/labelling of the material before shipping. Our substantial experience allows us to provide our services to private companies as well as institutional bodies such as banks or charity associations.

SOFTWARE

MULTIPLE DATABASE

All processed information are stored to ease future research processes.

WORKLOAD

Constant monitor on each coordinator's workload to optimize the performances for better result and customer's care.

PROFILING

All professionals are profiled based on personal information, skills, qualification and rates.

AUTOMATION

All information are stored and tracked in order to simplify and expedite the data processing from the coordinator.

INTUITION

Live tracking of the expired documents with Automated process for renewal request.

GEOLOCATION

Google API's facilitate the researching of candidates.

ASSIGNMENT MANAGEMENT SOFTWARE

RAPID, PRECISE AND RELIABLE

Our software was developed starting from our personal working experiences and knowledge. All assignment stages are handled step by step; from customer request to invoicing. Thanks to an intuitive and user friendly interface, clients are able to receive prompt solutions for all their needs.

The software has been completely updated, renewed and refreshed in order to keep the pace with the constantly changing needs and timing.

ASSIGNMENT MANAGEMENT SOFTWARE

PROCESS PHASES

REQUEST

Customer's request is analyzed in order to propose the most proper solution.

RESEARCH

Suitable candidates are selected upon skills and geolocation to guarantee the best quotation.

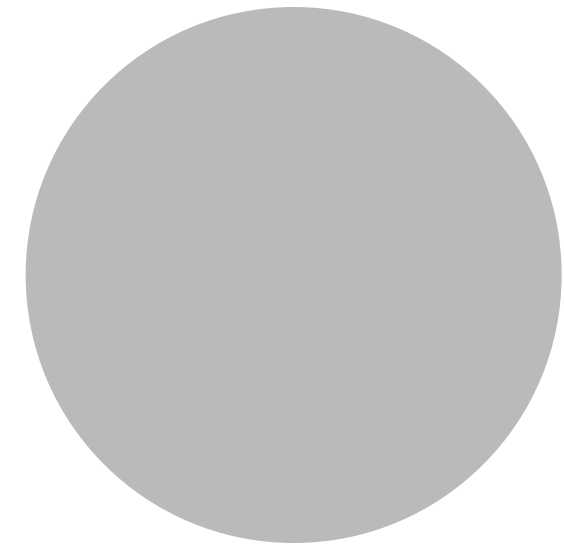

COMPLETION

Professionals are fully supported and monitored until completion of assignment.

BILLING

Costs and reimbursements are carefully checked and summarized to customers.
